

# SILICON

**SUPER SURFACTANT / SPREADER-STICKER LIQUID**

## PRODUCT HIGHLIGHTS

**Silicon** is a new generation of super surfactants using the advanced technology of siloxane. **Silicon** performs far better than conventional surfactants and spreader-stickers, in fact it is as much as 30 times as efficient. It penetrates the most hydrophobic plant and soil surfaces. It will eliminate hot and dry spots.

## SAFETY PRECAUTIONS

### KEEP OUT OF REACH OF CHILDREN.

Keep from open flame or sparks.

Do not get into eyes.

In case of ingestion or eye contact, flush with plenty of water and seek medical attention.

May be harmful if swallowed.

Refer to MSDS for complete safety information prior to using this or any other chemical product.

## DIRECTIONS

### For use with herbicides, fungicides and pesticides

Add to spray tank at the rate of 4 to 6 ounces **Silicon** per 100 gallons of spray solution.

### For use as a soil and turf wetter

**Greens and Tees:** Apply a solution of 8 to 12 ounces of **Silicon** per 50 gallons of water per acre early in the season to improve water penetration, absorption and retention.

**Fairways and Athletic Fields:** Apply a solution of 16 to 24 ounces of **Silicon** per 50 gallons of water to treat one acre.

Manufactured for **GOLDEN WEST Industrial Supply**  
To reorder, call: **1-800-521-2601** or **1-805-522-1000**  
All Products 100% Made in the USA
