

# REFLECTIVE TAPE 3" X 1000' x 3ml

Tape is formulated with an exclusive nighttime visibility silver ink that is combined with superior co-extruded polyethylene film to provide a cost-effective and disposable solution to your nighttime needs. In the dark, when a beam of light is directed at the legend, light bounces back towards the source for enhanced nighttime visibility.

Alternating NV silver and black inks provide enhanced day and nighttime communication for your project.
